Dear Mrs Davies

### **Annual Letter 2012-2013**

Following the recent publication of my Annual Report, I am pleased to provide you with the Annual Letter (2012-2013) for the Vale of Glamorgan Council.

As outlined in my Annual Report, the number of new complaints to my office increased by 12% compared with 2011/12. Health complaints continue to be the most numerous type of complaint and now account for more than a third of all complaints received. Housing and planning are the next largest areas of complaint, however, planning complaints are noticeably fewer in number compared to housing for the first time since the office came into existence (accounting for 16% and 12% of the caseload respectively).

In reference to the overall performance of County/County Borough Councils in Wales, whilst there has been a 35% increase in the number of investigation reports issued by my office during 2012/13 compared with 2011/12, I am pleased to note that, despite this increase, there has been no increase in the average number of 'upheld' reports issued against County/County Borough councils. Whilst I have had cause to issue a number of Public Interest Reports identifying serious concerns and failings, these reports have all concerned health bodies. Nevertheless, I would urge all bodies in Wales to read the reports to learn any general lessons appropriate to the services they deliver.

I note that the average number of 'Quick Fixes' and 'Voluntary Settlements' achieved with local authorities has decreased compared with 2011/12, from 5 to 4 cases. Such settlements are an effective way to resolve complaints at an earlier stage and without the need for a full investigation. As such, in order to maximise the opportunities to learn lessons from these types of cases, you can now find the

summaries of quick fixes and voluntary settlements included in my quarterly publication, The Ombudsman's Casebook.

However, I am disappointed to note that the amount of time taken by public bodies in Wales in responding to requests for information from my office has not improved. I am concerned that 45% of all responses took longer than five weeks, with 28% of responses taking in excess of 6 weeks. Whilst I appreciate that resources are stretched at this time, such delays obstruct me from providing complainants with the level of service which they should rightly expect to receive and I urge all Welsh public bodies to review their performance.

In reference to your Council, there has been a small decrease in the number of complaints received by my office, which remains below the average for the second consecutive year. The largest single area of complaint is now 'Planning and Building Control', whilst there has been a large decrease in the number of 'Housing' complaints. As with 2011/12, my office again received a large number of 'premature' complaints. It is pleasing to note that your Council's responses were received within four weeks of the date they were requested.

As with previous exercises, a copy of this letter will also be published on my website. I would also be glad to meet with you to discuss the contents of this letter and the work of my office if you consider it beneficial.

Yours sincerely

Peter Tyndall  
Ombudsman

### **Explanatory Notes**

Section A compares the number of complaints against the Council which were received by my office during 2012-2013, with the local authority average (adjusted for population distribution<sup>1</sup>) during the same period.

Section B provides a breakdown of the number of complaints about the Council which were received by my office during 2012-2013. Section C compares the number of complaints against the Council which were received by my office during 2012-2013, with the local authority average for the same period. The figures are broken down into subject categories.

Section D provides the number of complaints against the Council which were taken into investigation by my office during 2012-2013. Section E compares the number of complaints taken into investigation with the local authority average (adjusted for population distribution) during the same period.

Section F compares the complaint outcomes for the Council during 2012-2013, with the average outcome (adjusted for population distribution) during the same period. Public Interest reports issued under section 16 of the Public Services Ombudsman (Wales) Act 2005 are recorded as 'Section 16'.

Section G compares the Council's response times during 2012-2013 with the average response times for all local authorities, and all public bodies in Wales during the same period. This graph measures the time between the date my office issued an 'investigation commencement' letter, and the date my office receives a full response to that letter from the public body.

Section H provides a breakdown of all Code of Conduct complaints received against Councillors during 2011-2012. Finally, Section 'I' contains the summaries of all reports issued in relation to the Council during 2012-2013.

### **Housing Stock**

As with previous exercises, the figures for 2012-2013 have not been adjusted to take account of the transfer of housing stock. However, it is noted that there is likely to be a higher proportion of Housing complaints where local authorities have retained their housing stock.

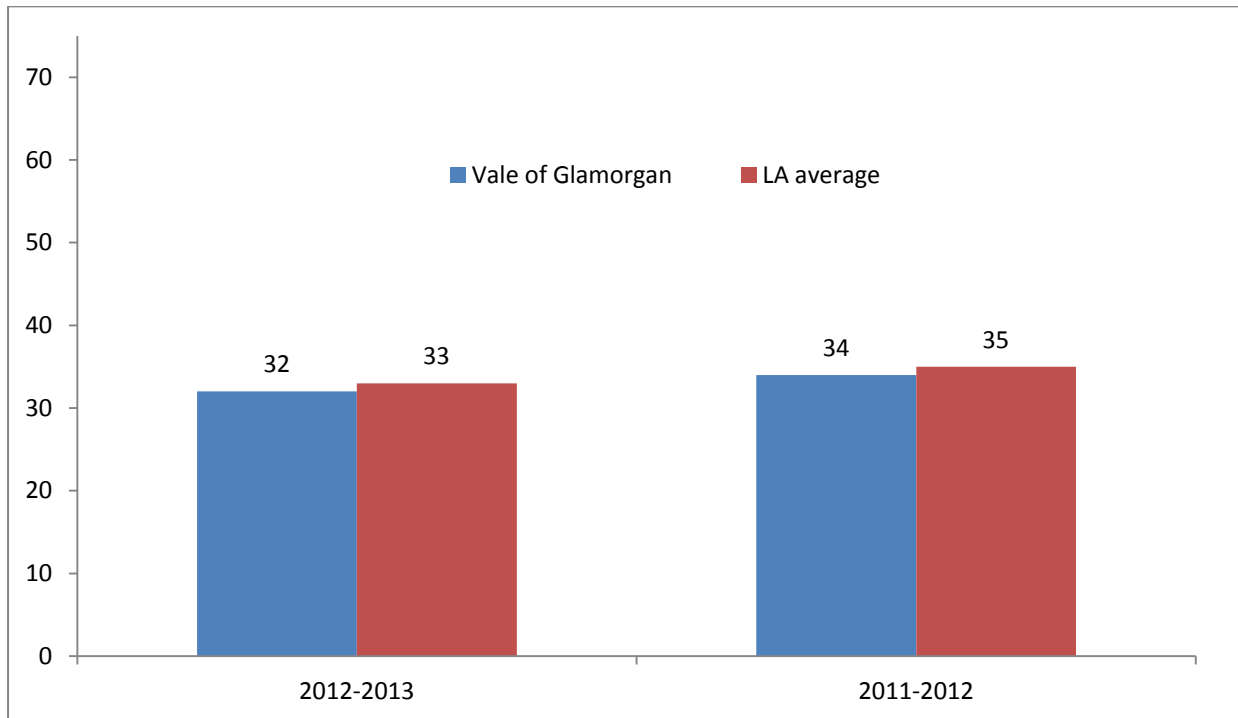

### **Feedback**

We welcome your feedback on the enclosed information, including suggestions for any information to be enclosed in future annual summaries. Any feedback or queries should be sent to [james.merrifield@ombudsman-wales.org.uk](mailto:james.merrifield@ombudsman-wales.org.uk).

Mrs K complained the Council had failed to provide a complaint response regarding damage to the complainant's late mother's property, which had led to financial repercussions. My office contacted the Council, who subsequently issued a response to the complainant.
